

**Wetaskiwin  
Regional  
Public  
Schools**

### **Division Commitment to Health and Safety**

Pursuant to the policies of the Board of Trustees, Administrative Procedures and the Health and Safety Manual. Wetaskiwin Regional Public Schools believes that all individuals are entitled to a safe and healthy work/learning environment. The division is committed to the safety and well-being of our students, employees, contract workers and visitors.

The division's goal is to eliminate or minimize hazards which cause accidents or injuries by implementing a division wide Occupational Health and Safety program.

The division's Occupational Health and Safety program has also been developed to comply with all legislative requirements which have relevance to the operation of a school division.

The responsibility for safety and accident prevention extends through all levels of the division. Board of Trustees, Superintendent, Associate Superintendents, Managers, Principals, Vice-Principals, Teachers and Support Staff. All employees must be involved in maintaining the Occupational Health and Safety program.

Employees must take reasonable care to protect themselves and others in the workplace. They are expected to cooperate with the employer to create a safe learning environment.

Dr. Terry Pearson

Superintendent of Schools

August 31, 2018
